symbol CRC**

Event to be reported: Clarifications regarding information appearing in the media

Chimcomplex SA Borzesti, as issuer, makes the following clarifications regarding information appearing in the media:

By winning a grant worth 195 million RON from the Ministry of Economy, Chimcomplex laid the foundation for an innovative industrial project that Romania needs.

Unfortunately, this funding was later revoked by the Ministry of Economy, and Chimcomplex decided to challenge this decision in court, which we considered illegal and unfounded. Currently, the case is being heard before the Bacău Court of Appeal.

Chimcomplex's strategy and ability to cover its own contribution to this project from available funds within the company and the group, without resorting to bank loans, although reflecting the company's commitment to financial sustainability and responsibility toward investors and partners, was not accepted by the Ministry as sufficient proof of securing co-financing.

The case registered at the Bacău Court of Appeal is a step through which we request a reconsideration of the decision to revoke the funding and to continue the dialogue to find viable solutions.

Chimcomplex is committed to contributing to the sustainable development and economic security of Romania. Reducing dependence on imports and creating jobs in Onești are national strategic objectives. Similar projects in other countries, such as Tesla's battery factory in Germany, faced obstacles, but through dialogue and collaboration, they were successfully completed, bringing immense benefits to the local and national economy.

Therefore, Chimcomplex remains steadfast in its commitment to protect strategic investments and promote economic development in Romania.
