

OFFER - ELECTRICITY SUPPLY NON-HOUSEHOLD END CUSTOMERS

Stimate client,

Stimate client,

The company **CHIMCOMPLEX S.A. Borzești**, through **CHIMCOMPLEX S.A. Borzești – Râmnicu Vâlcea Branch**, electricity supplier, holder of the license for the electricity supply activity issued by ANRE no. 2231/29.07.2020, presents the standard offer conditions for the supply of electricity to non-household final consumers.

Contract price:

In accordance with the applicable legislation in force, the contract price is composed of:

The basic price of electricity, to which are added **other costs** (regulated tariffs and legal fees), depending on the distribution area where the place of consumption is located.

The basic prices of electricity for each category of consumer are as follows:

End consumer category	Price Offer* [lei/KWh]
Household consumer	2,000
Non-household end consumer	
	Price Offer* [lei/MWh]
Annual consumption below 20 MWh	2000
Annual consumption 20-500 MWh	2000
Annual consumption 500-2000 MWh	2000
Annual consumption 2000-20000 MWh	2000
Annual consumption 20000-70000 MWh	2000
Annual consumption over 70000MWh	2000

* Basic electricity price excluding taxes and tariffs

The following regulated tariffs are added to the basic prices mentioned in the table above:

1. **Specific distribution tariffs** - according to the **Order of the President of ANRE no. 96/2024**, in force starting with **01.01.2025**.

Distribution area	High voltage distribution tariff	Medium voltage distribution tariff	Low voltage distribution tariff
	[lei/MWh]	[lei/MWh]	[lei/MWh]
Energy Distribution Oltenia	44,45	91,69	227,39

The regulated tariffs for transmission and system services, according to the Order of the President of ANRE no. 99/2024, in force as of 01.01.2025, and no. 57/2024, in force as of 01.09.2024, as well as the Contribution for High Efficiency Cogeneration, according to the Order of the President of ANRE no. 91/2024, in force as of 01.01.2025.

Tariff for the introduction of energy into the TG network [lei/MWh]	Tariff for extracting energy from the grid – TL [lei/MWh]	System Services Tariff – TSS [lei/MWh]	High-efficiency cogeneration [lei/MWh]
3,29	33,03	11,51	16.96

2. Excise duties for electricity: in the amount of **RON 3.62/MWh**, for commercial energy consumption and **RON 7.24/MWh** for non-commercial energy consumption, being valid for **2025**;

3. The value of Green Certificates - represents the product of the value of the mandatory annual quota for the acquisition of certificates (**CV/MWh**) estimated by ANRE, the amount of electricity billed (**MWh**) and the price of green certificates calculated as the weighted average price of transactions in the centralized market of green certificates in the month prior to the billing month or the last monthly weighted average available. As of **January 1, 2025**, the estimated mandatory quota for the acquisition of green certificates for the year **2025** is **0.496 CV/MWh**, according to **ANRE Ordinance no. 90/2024** and, taking into account the transaction price of **RON 146.2532/CV**, results in a value of: **RON 72.5415872/MWh**.

The value of the reactive electricity is invoiced in accordance with **ANRE Order no. 33/2014**, amended by **ANRE Order no. 76/2016**, and is found in the invoice for the month of consumption. The price for invoiced reactive electricity is provided by **ANRE Order 96/2024**, in force starting with **01.01.2025**, corresponding to the distribution area of the place of consumption.

The energy bill is issued in the first 5 working days of the month following the month of delivery;

Invoice due date: **30 calendar days** from the date of registration of the invoice with the consumer;

Offer validity: 01.01.2025 - 30.06.2025

Duration of the contract: 12 months, with the possibility of extension with the agreement of the parties.

This electricity supply offer can be accepted by the buyer by e-mail, at:
office@chimcomplex.com.

In order to conclude the contract, the consumer will have to present the complete data of the place of consumption and of the company or institution, including the e-mail address, telephone and fax number at which he can be contacted.

. no. 235/2019, in order to conclude the electricity supply contract, the applicant must submit to the supplier at least the following documents:

a) the request for the conclusion of the contract;

b) **a copy of the applicant's identity document / certificate of registration with the National Trade Register Office;**

c) **the affidavit** regarding the ownership of the residential space for which the conclusion of the contract is requested (as owner / co-owner, heir, co-heir, spouse, tenant, beneficiary of life annuity, etc.) and regarding the fact that **there are no housing disputes** regarding the space for which the conclusion of the contract is requested. If the contrary is proven, **I express my agreement for the termination of the contract**, with the possibility of updating the statement, if necessary, both by means of distance communication and by tacit agreement.

The supplier may waive the request for the presentation of the documents in original, in which case the applicant must give a declaration on his own responsibility that the documents submitted are in conformity with the originals.

The transmission of the documents provided above can also be done electronically, in compliance with the legislation in force.

In the hope that our offer meets your requirements, we assure you of our real interest in concluding a contract between the parties and of our full availability to provide additional information.
